

DARW 2003

DENTAC/DCC: Saudi Arabia

These soldiers epitomize the saying -
"Not just dental assistants – Hooah!"

During Dental Assistant Recognition Week these dental assistants in the Gulf were busy taking care of America's Army.

"Whether inside or outside of the clinic--the Army dental assistants deployed in Saudi Arabia are performing superbly. During mass casualty exercises they serve on aide and litter teams as well as help co-ordinate the ground and air evacuation of casualties as part of the Tactical Operations Center (TOC)."
